We also provide research and investor education. We offer domestic and international equities, mutual funds, exchange traded funds (ETFs), fixed income securities, certificates of deposit, annuities, and real estate investment trusts (REITs). We do not make available or offer advice with respect to proprietary products. Unless we agree otherwise in writing, we do not monitor your account, nor engage in discretionary trading for you. **Conversation Starters:** *“Given my financial situation, should I choose a brokerage service? Why or why not? How will you choose investments to recommend to me? What is your relevant experience, including your licenses, education, and other qualifications? What do these qualifications mean?”*

**What Fees will I Pay?**

For brokerage services, the principal fees and costs are transaction-based commissions for recommendations and execution of securities trades. Depending on the investment, commissions may be charged at the time of trade execution – more transactions could lead to higher commissions. 12b-1 fees may be paid to the firm from investment companies and can lead to a conflict of interest. Trails are based on a percentage of the value of the investment. All commissions, fees and charges could create a conflict of interest. You may also pay fees for custodial and/or administrative services, wire and transfer fees, bank charges and other expense charges. Some expenses and fees are included in the expense ratios of certain investments like mutual funds, ETFs, annuities, and REITs. Note you will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.

For additional information about fees, commissions, and costs for our brokerage services, please call 314-878-1954 or email [asi@arlingtonsecurities.us](mailto:asi@arlingtonsecurities.us) to request a copy of our RBID.

**Conversation Starters:** *“Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?”*

**What are your legal obligations to me when providing recommendations? How else does your firm make money and what conflicts of interest do you have?**

*When we provide you with a recommendation as your broker dealer, we must act in your best interest and not put our interest ahead of yours. The way we make money could create a conflict of interest. You should understand and ask us about these conflicts because they can affect the recommendations we provide you. Here is an example to help you understand what this means.*

**Commissions**

Commissions are charged at the time of trade execution. More transactions could lead to higher commissions.

**12b-1 Fees and Trails**

We receive 12b-1 fees, based on the value of your account certain investment products (primarily mutual fund and variable annuities). Shareholder servicing fees are paid to us to provide you with information about your investments. The fees are based on the value of your account and reduce gross investment return. Fees range from 0% to 1% and are fully disclosed in the prospectus for each investment.

For more specific information and discussion regarding conflicts of interest, you may request a copy of our RBID by calling 314-878-1954 or emailing [asi@arlingtonsecurities.us](mailto:asi@arlingtonsecurities.us).

**Conversation Starters:** *“How might your conflicts of interest affect me and how will you address them?”*

**How do your financial professionals make money?**

Our financial professionals receive a negotiated portion of the commission you pay for trades. Factors that may affect compensation include the amount of client assets serviced, time and complexity to meet your needs, the product itself and product sales commissions. Receipt of compensation creates a conflict of interest for our financial professionals.

**Do you or your financial professional have legal or disciplinary history? Yes.**
